

Registered 1999 Southville Church of Christ Circa 1889

The Southville Church of Christ was the first Church of Christ in Digby County. Constructed in 1889 by the congregation under the leadership of Mr. J.A. Gates, most of the material was donated by the local people. This building is an important landmark for the community. When it was the meeting house for the Church of Christ, it was an important gathering point for the communities of Riverdale, Danvers and Southville.

Currently the church is home to the *Meeting House Society*, a newly formed group of citizens from the surrounding area that is dedicated to breathe new life into this community landmark.
